

NOT JUST LEAK DETECTION!

Spill-STOP LEAK CONTAINMENT

Prevent costly & hazardous
spills caused by pump
diaphragm failure

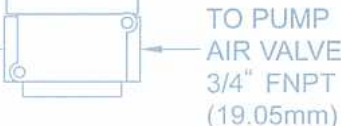

SPILL STOP™

LEAK CONTAINMENT

The Spill-STOP's patented design safely captures leaked product while effectively shutting down failing pumps. Optional warning alarm and backup pump switchover further ensures maximum productivity and minimal system downtime.

AIR VALVE
3/4" FNPT
(19.05mm)

USE A Spill-STOP TO:

- Prevent hazardous & costly spills due to failed diaphragms
- Eliminate the loss of product
- Minimize costly system downtime
- Avoid costly EPA reporting
- Reduce dangerous airborne materials that are expelled from pump exhaust

Spill-STOP FEATURES:

- Compatible with all AODD pumps with discharge sizes from 1/4" (6.35mm) to 4" (101.6mm)
- All pneumatic – no hazardous electronics or unreliable batteries used
- Warning alarm and automatic backup pump switchover options available
- Bodies available in a full range of chemically resistant materials

CAN YOU AFFORD NOT TO OWN A Spill-STOP?

Calculate Your Spill-STOP ROI

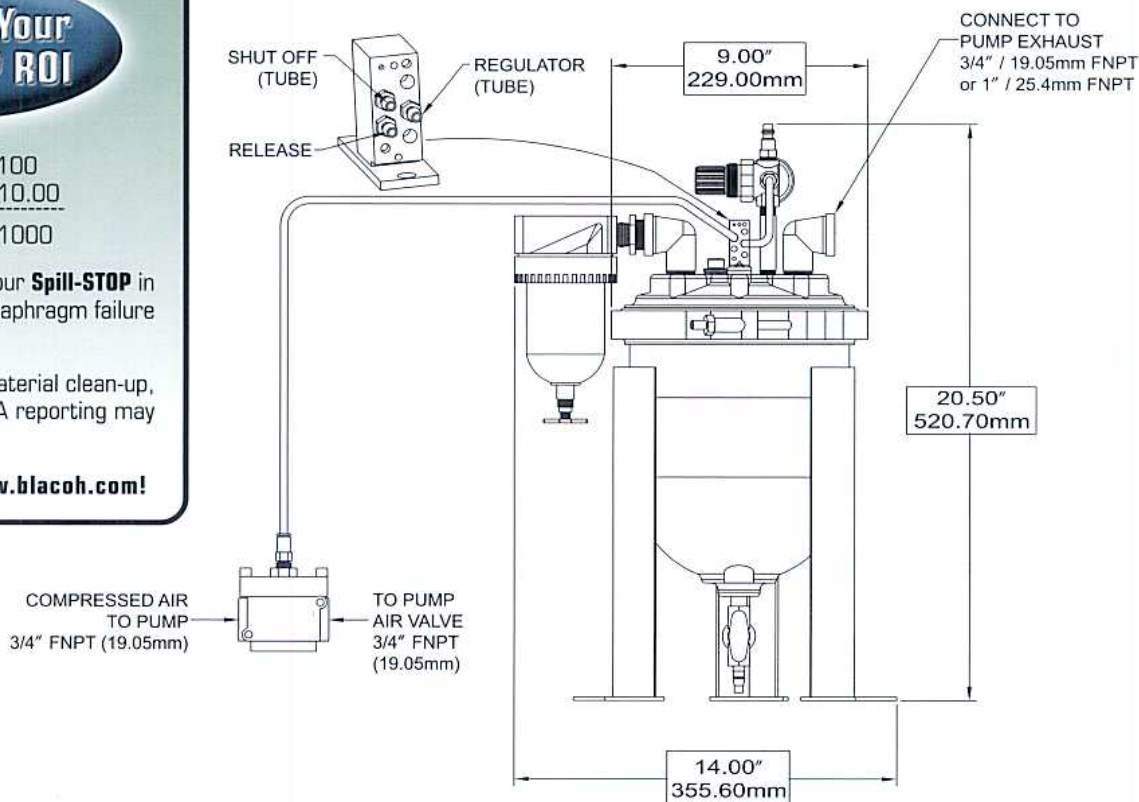

EXAMPLE:

Gallons Pumped/Minute 100
 Cost/Gallon \$10.00
 \$\$\$ Lost/Minute \$1000

You would...have paid for your **Spill-STOP** in just over 1 MINUTE after diaphragm failure in product cost alone!

Additional costs such as material clean-up, system shut-down, and EPA reporting may also apply.

Calculate your ROI on www.blacoh.com!
