

DRUM  
PUMP

THE  
PRIME

ADVANTAGE . . .

Making Fluid Transfer Simple

The self priming Typhoon™ Drum pump delivers the fluid transfer solution you've been asking for. Uniquely designed with flexible impellers the Typhoon™ Drum pump delivers the suction lift capabilities needed in today's toughest applications. Designed for ease of use, the portable Typhoon™ Drum pump is engineered with safety and productivity in mind, simplifying your fluid transfer applications.

## FEATURES & BENEFITS

**Self priming flexible impeller**

**Pump casing and impeller not submerged**

**Electrically driven**

1 phase, 500 W (1/2 HP), 60HZ (110V)

1 phase, 500 W (1/2 HP), 50HZ (230V)

**Self draining fluid casing**

**Hose or threaded connections**

**Ease of operation & portability**

**Compact design**

**TYPHOON™**  
DRUM PUMPS

# FLUID TRANSFER SIMPLIFIED

Typhoon™ Drum pumps are self priming and offer a wide range of chemical compatibility needed for your fluid transfer applications. The drum pumps have been uniquely designed to fill, dispense or unload product in minutes. Whether you have pH balancing applications or transferring hazardous fluids, Typhoon™ Drum pumps are engineered to simplify the fluid transfer process.

## APPLICATIONS

- Drum unloading
- Tote or specialty container unloading
- Dispensing applications
- pH balancing
- Thin viscosity fluids
- Wash down and sanitizing fluids
- Hazardous liquids

## PERFORMANCE

**Pump Head Materials:** Aluminum or Stainless Steel

**Impeller Materials:** High Temp NBR (Buna) or Peek

**Shaft Material:** 303 or 316 Stainless Steel

**Connection Type:** BSPT or NPT Threaded or Barbed Hose

**Inlet Connection Size:** 19 mm (3/4") Threaded or Barbed Hose

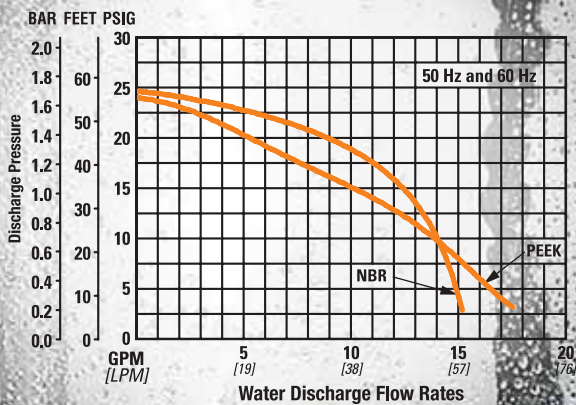

**Discharge Connection Size:** 13 mm (1/2") BSPT or NPT  
19 mm (3/4") Barbed Hose

**Max. Fluid Temperature:** 0°C to 30°C (32°F to 86°F)

**Max. Flow:** 66 lpm (17.4 gpm)

**Max Discharge Pressure:** 1.7 bar (25 psig)

**Max. RPM:** 9,800

**Get your prime advantage today and quickly fill, dispense or empty containers in minutes!**
